

eZyBiz™ Online Customer Portal

Working with Holcim just got easier!

What is it

eZyBiz™ is an online self-service portal that puts all your bulk cement ordering and delivery details with Holcim at your fingertips. Now you have the control to manage everything in one easy place. The key features immediately available for access include ordering, delivery reports and dockets.

How it works

By placing all your day-to-day transactions in one online portal, eZyBiz gives you 24/7 access to whatever you need in just a few clicks. Once logged on, the easy-to-navigate home page allows you to quickly find and source exactly what you're looking for with simple prompts and logical navigation.

Key features

eZyBiz™ gives you the ability to view and access:

- Online bulk cement ordering
- Real-time delivery information
- Delivery dockets

Key benefits

Autonomy – control what you see and how you see it
Access management – ownership of account access and users

Any device – Access to eZyBiz is available on PC, tablet and mobile (tablet and mobile optimisation for bulk cement ordering coming soon!)

Anywhere – All you need is your electronic device and coverage

Anytime – 24/7, 365 days

Streamlining your business in three easy steps

- Enabling you to order online
- Developing solutions to give you greater control and visibility over your orders
- Delivering information to you in real-time
